

# NVR-00-G2 | ONX COMPACT

Up to 8 IP Cameras • 2 x 2.5"/3.5" Storage Bay

ExteriorView

RearView

## DESCRIPTION

ONX Compact is a lightweight, energy-efficient and cost-effective recording system designed for use in consumer and small business environments.

Tailor the ONX Compact to your specific needs with two full-size drive slots, allowing for easy storage expansion and even redundancy.

The option to laser etch a company logo into the chassis is also available.

### ATTENTION:

This device requires an active internet connection to function correctly, due to a lack of a CMOS battery. The device's time synchronization is likely to fail if no internet connection is available and the power to the device is lost.

# NVR-00-G2 | ONX COMPACT

## Device Specifications

| ITEM             | DETAILS                                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Operating System | <ul style="list-style-type: none"><li>▪ Ubuntu Server 20.04 LTS</li></ul>                                                                                       |
